**For Immediate Release – September 1, 2000**

## **ILI Technologies Corp. launches new RDD Technology**

ILI Technologies Corp. through it's newly created US subsidiary ILI Technologies Corp. USA recently introduced into the US marketplace it's new Remote Digital Display (RDD) technology.

The RDD units will be used in conjunction with ILI's PressureTrax product line targeting the oil and gas market supporting flowback, fracturing and wireline services.

ILI Technologies Corp. USA will market and provide field services support for the RDD technology from operations based in Texas and New Mexico. RDD rental revenues are generating \$200US/unit per day in Texas, New Mexico, Wyoming, Utah and Oklahoma. ILI expects that demand for this solution will grow rapidly due to the benefits to the energy sector.

ILI Technologies Corp. is a Calgary based high technology corporation whose principal business is to develop, manufacture and market Information Technology (IT) solutions that improve business performance. ILI's existing suite of integrated hardware and proprietary software products provide innovative, robust and cost effective data capture solutions in the growing North American and international markets for IT applications.
