## **International Contracts awarded for Touch Traxä.**

CALGARY ALBERTA, - August 22, 2001—ILI Technologies Corp. announced today that it has received two significant contracts with international players in the Oil & Gas industry. Delivery for its latest “Inventory Trax” and “Valve Trax” solutions are expected to start in September 2001 with customer installations in the domestic and Asia Pacific markets.

Touch Trax technologies will provide significant advantages over existing methods to manage field based assets and retrieve critical component maintenance data. The Corporation has expanded its suite of services in response to our customers growing demands for improvements in productivity utilizing digital tags coupled with event date and time stamping. “We are ecstatic about receiving these contracts” comments Jean Cote, President of ILI Technologies Corp. “These contracts continue to demonstrate the recognition of the significant advantages of the Corporation’s Touch Trax™ solutions. Penetrating the majors like we have today, only increases the market potential for our products worldwide. We look forward to continuing our sales momentum into the 4<sup>th</sup> quarter.”

ILI Technologies Corp. is a Calgary-based high technology corporation whose principal business is to develop, manufacture and market Information Technology (IT) solutions that improve business performance. ILI’s existing suite of integrated hardware and proprietary software products provide innovative, robust and cost effective data capture solutions in the growing North American and international markets for IT applications.
