ILI TECHNOLOGIES ANNOUNCES THE ISSUANCE OF OPTIONS TO ITS DIRECTORS, EMPLOYEES & CONSULTANTS

Calgary, Alberta: April 26, 2004 - ILI Technologies (2002) Corp. (“ILI”) announces that it has granted 285,000 options to purchase common shares at a price of \$0.38 per share. 100,000 of the options were granted to the following directors of ILI: (i) Thomas, Milley received an option to purchase 50,000 shares; and (ii) John Grimes received an option to purchase 50,000 shares. Three of ILI’s employees received an aggregate grant of 110,000 options and one consultant of ILI received a grant of 75,000 options. The \$0.38 issuance price represents the maximum allowable discount to the market price and any shares issuable upon the exercise of an option will be subject to all required regulatory hold periods. The options issued to the consultant and the employees are subject to a vesting period and will be released on a quarterly basis with the first release date occurring on January 1, 2005. If unexercised, the option grants to the employees and the consultant will expire on the earlier of: (i) the date that such employee or consultant ceases to provide consulting services to ILI; and (ii) September 21, 2006. The options issued to the directors are subject to no vesting period and will expire on the earlier of: (i) a date that is 30 days after such director ceases to be a director, officer, employee or consultant of ILI; and (ii) September 21, 2006.

The Corporation is a Calgary-based high technology corporation whose principal business is to develop, manufacture and market Information Technology (IT) solutions that improve business performance. The Corporation’s existing suite of integrated hardware and proprietary software products provide innovative, robust and cost effective data capture solutions in the growing North American and international markets for IT applications.
